FULL YEAR ENDED 30 SEPTEMBER 2022

RESULTS PRESENTATION & INVESTOR DISCUSSION PACK

27 OCTOBER 2022

Approved for distribution by ANZ's Continuous Disclosure Committee
Australia and New Zealand Banking Group Limited 9/833 Collins Street Docklands Victoria 3008 Australia

ABN 11 005 357 522

For personal use only

DISCLAIMER & IMPORTANT NOTICE

The material in this presentation is general background information about ANZ's activities current as at the date of the presentation. It is information given in summary form and does not purport to be complete. It is not intended to be and should not be relied upon as advice to investors or potential investors and does not take into account the investment objectives, financial situation or needs of any particular investor. These should be considered, with or without professional advice when deciding if an investment is appropriate.

This presentation may contain forward-looking statements or opinions including statements regarding our intent, belief or current expectations with respect to ANZ's business operations, market conditions, results of operations and financial condition, capital adequacy, specific provisions and risk management practices. When used in this presentation, the words 'forecast', 'estimate', 'project', 'intend', 'anticipate', 'believe', 'expect', 'may', 'probability', 'risk', 'will', 'seek', 'would', 'could', 'should' and similar expressions, as they relate to ANZ and its management, are intended to identify forward-looking statements or opinions. Those statements: are usually predictive in character; or may be affected by inaccurate assumptions or unknown risks and uncertainties; or may differ materially from results ultimately achieved. As such, these statements should not be relied upon when making investment decisions. These statements only speak as at the date of publication and no representation is made as to their correctness on or after this date. Forward-looking statements constitute "forward-looking statements" for the purposes of the United States Private Securities Litigation Reform Act of 1995. ANZ does not undertake any obligation to publicly release the result of any revisions to these forward-looking statements to reflect events or circumstances after the date hereof to reflect the occurrence of unanticipated events.

ANZ PLUS - MORE EFFICIENTLY DRIVE HIGHER CUSTOMER GROWTH, GREATER ENGAGEMENT AND BETTER FINANCIAL HEALTH

For personal use only

LAUNCH
 ANZ Plus; drive customer growth and increased customer engagement

How we measure success

	More attractive	Greater propensity to join	Brand consideration	# New customers	% Main Bank customers
			Relative app store rating	# ANZ customers migrated	
	More engaging	Higher customer lifetime value	Risk adj. revenue per customer	Key episode NPS	% customers ahead on Home Loan
			Average balances per customer	% customers actively contributing to a savings goal	% customers with data sharing consent
			% customers making and receiving payments regularly	% customers saving for a home	Customer financial wellbeing score
			# Interactions per customer	% customers with a Home Loan	Retention of active customers
	More efficient	Lower cost to onboard, serve and engage	Velocity of new features and capabilities released	Marginal cost of service (contact centre, coaching) per customer	Customers per Plus FTE
			Marginal cost to acquire and join per customer	Average product management cost per customer	
	More secure	More resilient systems and services	Complaints per customer	% Transactions using PayID	System downtime
			Fraud losses per customer		

More than 100 metrics are auto tracked on a weekly basis

FURTHER REPOSITIONING AND SIMPLIFICATION OF THE GROUP

For personal use only

CONTINUE

Group simplification & productivity, as well as de-risking & repositioning initiatives across the Group

Formal separation of Wealth

Completed Wealth remediation

Sold retail margin lending business (\$1b lending book)

Commenced ANZ Worldline Joint Venture

Ongoing simplification focus across Group
Simplifying technology infrastructure, automating day-to-day operations

Reduced ANZ's own corporate footprint, sqm

~20% footprint reduction in Australia

Simplifying tech infrastructure

Applications

31%

now on Cloud, with the goal of having 70% of apps on Cloud

Resulting in improved resilience, more efficient software spend and better capacity management

ENVIRONMENTAL UNCERTAINTY - STATE OF THE AUSTRALIAN ECONOMY

For personal use only

WELL POSITIONED TO SUPPORT OUR CUSTOMERS

For personal use only

Expect continued **volatile environment**

- **Higher levels of inflation**
- **Higher interest rate environment**, locally and globally
- **Disruptive events and geopolitical risk** (e.g. global trade), financial systems prone to external shocks

But... **Australia and NZ are better positioned** vs. other economies

Structurally well positioned

Invested to position ANZ for the future way of operating, incl. data insights to proactively support customers

Purpose led culture & people

Continuously empowered our people to deliver the right outcomes for our customers

Appropriate customer portfolio

Helped customers achieve solid positions to navigate the current environment

Reweighted exposures; Strong funding & liquidity

Actively positioned the bank for through-cycle performance with a highly liquid balance sheet and strong funding

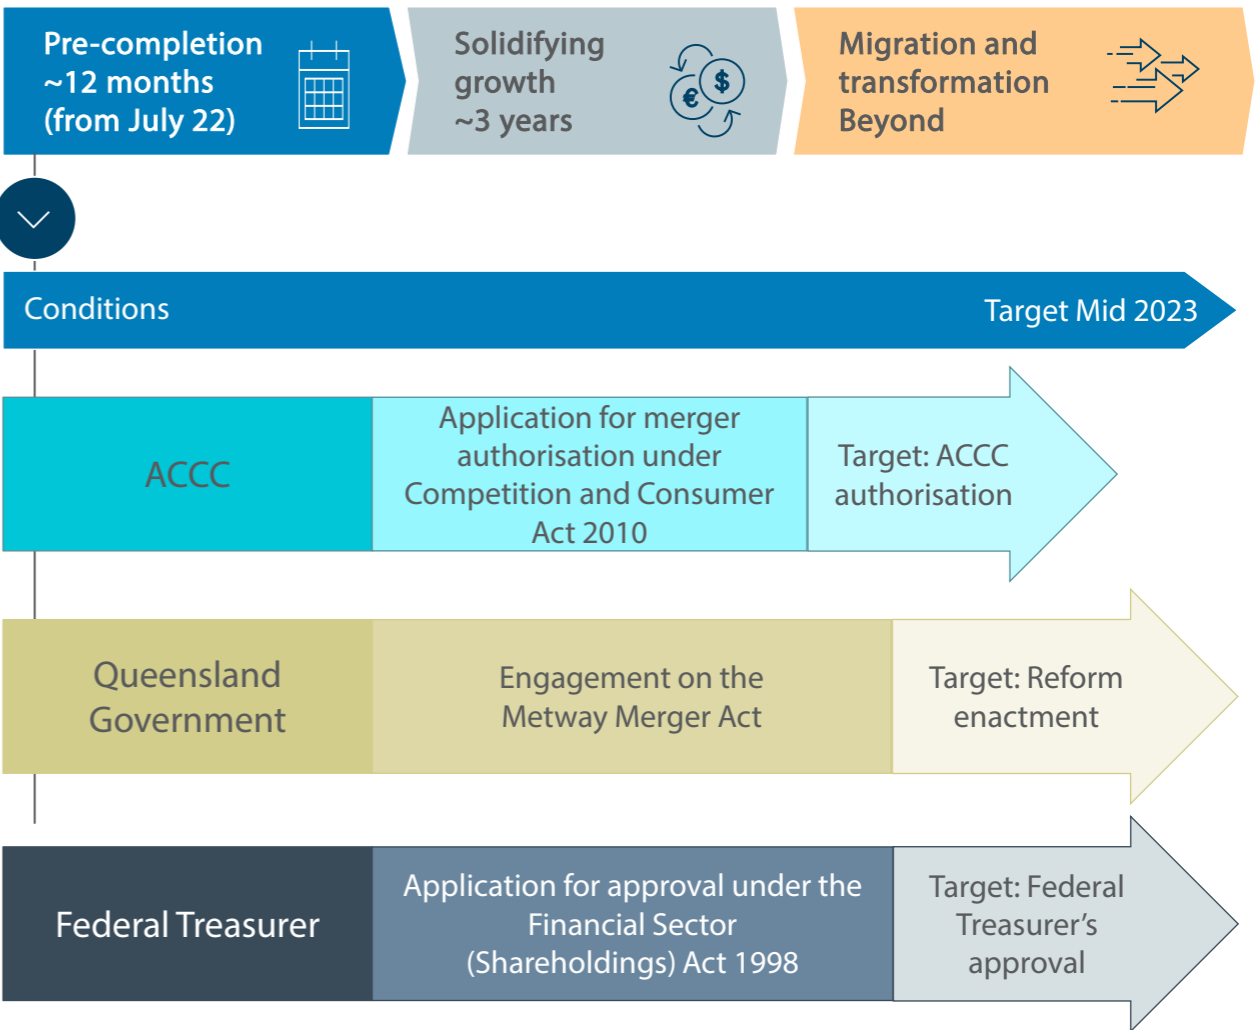

De-risked portfolio

Proactively shaped and de-risked portfolio through recent exits and other commercial decisions

SUNCORP BANK ACQUISITION PROVIDES A PLATFORM FOR GROWTH

Provides increased scale and diversification¹

1. Percentage increase in the size of ANZ's Retail & Commercial portfolios based on the combined businesses (ANZ Australia Retail & Commercial and Suncorp Bank) as disclosed in ANZ's 'Acquisition of Suncorp Bank and Equity Raising Investor Discussion Pack' of 18 July 2022

2. Gross Loans and Advances

For personal use only

NON-OPERATING HOLDING COMPANY (NOHC)

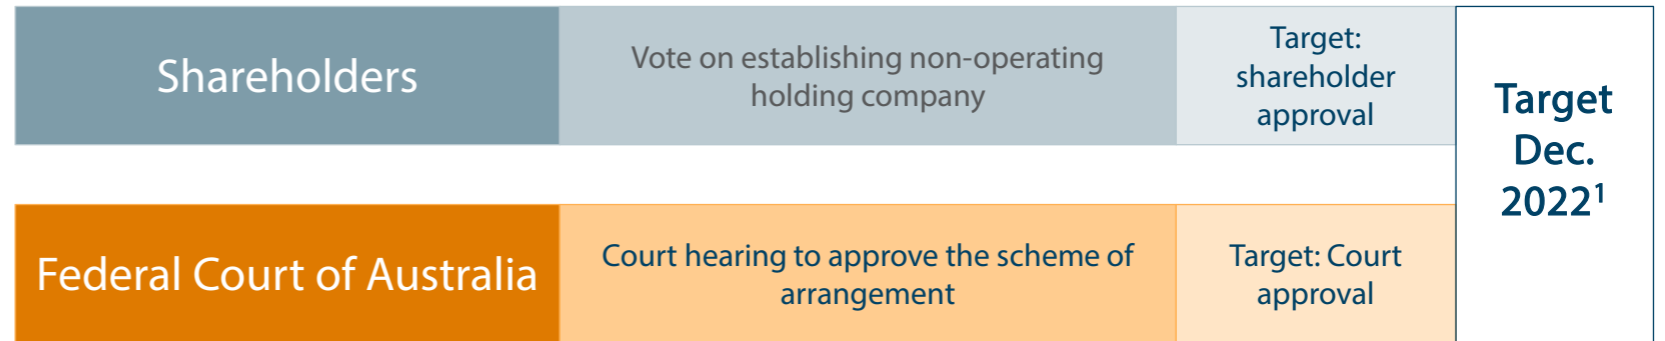

For personal use only

Introducing a new corporate structure to make our core bank stronger and unlock shareholder value, that will be a subject of a shareholder vote

Early 2022 – Oct 2022¹

- ANZ announced intention to establish a NOHC
 - Creating distinct banking and non-banking groups within the organisation
- Engaged with APRA, RBNZ and foreign regulators
- Approval received from APRA, the Federal Treasurer and RBNZ to establish a NOHC

Commencement of normal trading of ANZ NOHC shares on the ASX & NZX (Target January 2023)¹

1. A detailed timeline is included in ANZ's Explanatory Memorandum (<https://www.anz.com/shareholder/centre/>), which includes important information about the Non-Operating Holding Company restructure. Further information is available in section 2 and section 7.4 of ANZ's Explanatory Memorandum. Shareholders are encouraged to read this document in full before making any voting decision

KEY MESSAGES

Group NIM, bps

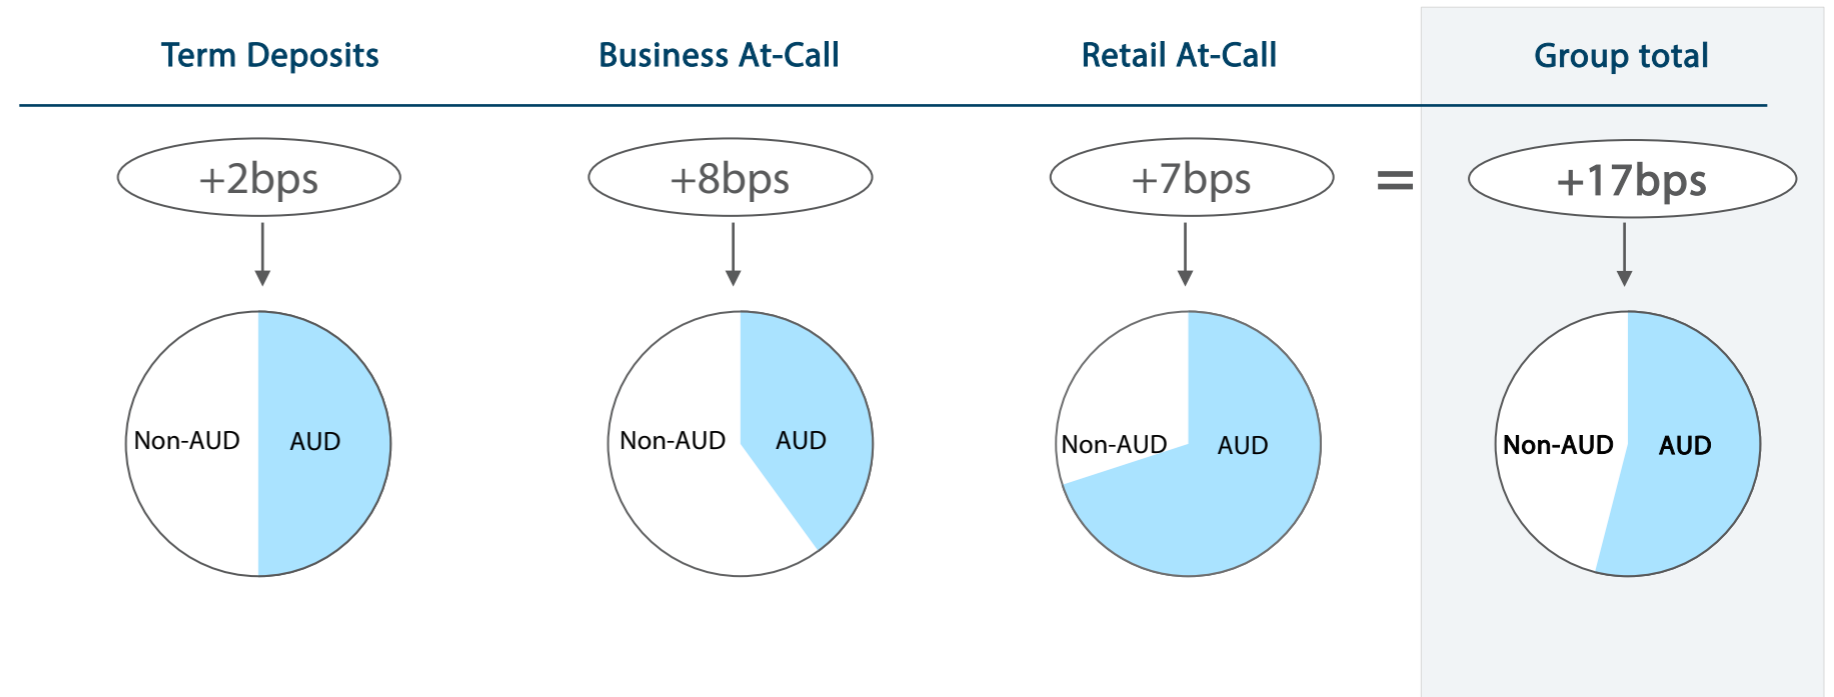

CUSTOMER DEPOSIT PORTFOLIO CONTRIBUTION TO NIM EXPANSION

Deposit portfolios excluding Replicating balances¹, \$b

Group NIM movement contributions in 2H22²

Details on the Capital and Replicated deposit portfolio are contained on page 54 of the Investor Discussion Pack

1. End of period balances. Excludes deposits from Banks
2. Classification of Business At-Call and Retail At-Call are based on internal segmentation. Basis point change (bps) refers to impact on 2H22 Group NIM relative to 1H22

For personal use only

NIM OUTLOOK CONSIDERATIONS

Tailwinds

- Higher capital & replicated deposit earnings
- Rising rate environment
- Increasing mix of variable rate home loan flows

Headwinds

- Lending and deposit competition
- Deposit mix changes (At-Call to TD shift)
- Higher wholesale costs (including wider spreads and TFF replacement across sector)

“We expect the environment will continue to be supportive for margins in the first half, although any change from the exit margin is likely to be more modest”

This page may contain forward-looking statements or opinions. Please refer to ANZ's Disclaimer and Important Notice with respect to such statements on page 1

OTHER OPERATING INCOME GROWTH

CASH CONTINUING EXCLUDING LARGE / NOTABLE ITEMS & MARKETS INCOME

This page may contain forward-looking statements or opinions. Please refer to ANZ's Disclaimer and Important Notice with respect to such statements on page 1

1. Source: Capitalised software balances sourced from publicly available company financials. Peer FY22/1H22 numbers are based on the most recently disclosed financial disclosures

CONTINUED DISCIPLINED MANAGEMENT OF EXPENSES

CASH CONTINUING EXCLUDING LARGE / NOTABLE ITEMS

Total expenses, FY22 vs FY21 \$m

“Looking ahead, expense trends will be impacted by headwinds arising from wage and vendor cost inflation together with uplifts including the annualised impact of the Cashrewards acquisition and stranded costs post the formal separation of the Wealth business.

We will maintain our relentless focus on productivity to help offset some of this impact. It is likely, however, that our total expenses excluding LNI of \$9.17 billion will increase by ~5% in FY23

All else being equal, we expect revenue growth to be higher than cost growth in FY23”

This page may contain forward-looking statements or opinions. Please refer to ANZ’s Disclaimer and Important Notice with respect to such statements on page 1

LOW PROVISION CHARGE, CP BALANCE REMAINS ABOVE 2019 LEVELS

Provision charge, \$m

Home Loans repayment profile^{1,2}, % of accounts ahead of repayments

Fixed rate home loan expiry profile, \$b

Dynamic LVR based on portfolio balances^{1,3}, %

Offset account balances⁴, \$b

1. Includes Non Performing Loans
 2. % of Owner Occupied and Investment Loans that have any amount ahead of repayments. Excess repayments based on available redraw and offset. Excludes Equity Manager Accounts
 3. Includes capitalised LMI premiums and excludes offset balances, accounts with a security guarantee and unknown DLVR. Valuations updated to Aug 22 where available
 4. Offset balances reflect only those balances linked to HLs accounts, restated to exclude balances in offset accounts which are no longer linked to an active HL account

CAPITAL, FUNDING AND LIQUIDITY

For personal use only

\$3.5b equity raise

- Successful raise in challenging market conditions
- Fair and equitable raise for all shareholders via PAITREO¹
- Balance of the Suncorp Bank acquisition from existing capital

Capital reforms

- Progressed implementation of APRA & RBNZ reforms

Funding & Liquidity

- Strong liquidity and funding ratios (NSFR, LCR)
- Manageable replacement of Term Funding Facility (TFF) and immaterial Committed Liquidity Facility (CLF) of \$2.7b

Interest Rate Risk of TFF is hedged and consequently cost increases as OCR increases

1. Pro-rata, Accelerated, Institutional, Tradeable, Renounceable, Entitlement Offer

SUMMARY

We have delivered on our **five priorities across the Group in FY22**

Strongly positioned for the cycle – navigating risks and capturing new opportunities

Continuing to execute our strategy; with **clear priorities** for year ahead

- **Home loans momentum restored** – maintain focus on margins going forward
- **ANZ Plus launched** – focus on value creation
- **Expenses well managed** – continue to build on proven productivity DNA to deliver offsets to the extent possible
- **Investment spend shifted** – continue to shift to growth and productivity while managing regulatory and compliance effectively
- **High quality book established** – continue to protect our position and mitigate tail risk
- **Suncorp Bank acquisition announced** – ensure robust integration and timely realisation of synergies

CORPORATE OVERVIEW
INVESTOR DISCUSSION PACK

OUR PURPOSE & STRATEGY

Our purpose is to shape a world where people and communities thrive. It explains ‘why’ we exist and drives everything we do at ANZ, including the choices we make each day about those we serve and how we operate.

We bring our purpose to life through our strategy; to improve the financial wellbeing and sustainability of customers through excellent services, tools and insights that engage and retain them, and help positively change their behaviour.

Through our purpose we have elevated areas facing significant societal challenges aligned with our strategy and our reach which include commitments to:

- Improving the financial wellbeing of our people, customers and communities by helping them make the most of their money throughout their lives;
- Supporting household, business and financial practices that improve environmental sustainability; and
- Improving the availability of suitable and affordable housing options for all Australians and New Zealanders.

In particular, we want to help customers:

Save for, buy and own a liveable home

Start or buy and sustainably grow their business

Move capital and goods around the region and sustainably grow their business

THE BANK WE'RE BUILDING

'We are the Bank for those in Australia & New Zealand who want to buy and own a home or start, run, and grow a small business and for those larger businesses trading and investing in Asia Pacific'

'We work with the best partners to offer competitive and engaging solutions that make our customers' lives easier. We build loyalty by improving our customers' financial wellbeing and helping them run their businesses more sustainably'

'We embrace a world of constant change, by building a nimble, resilient organisation capable of anticipating needs, creating opportunities, and delivering what matters, quickly and safely'

Giving our customers access to

Propositions
our customers
love

Purpose and
values-led
People

Flexible digital
banking
Platforms

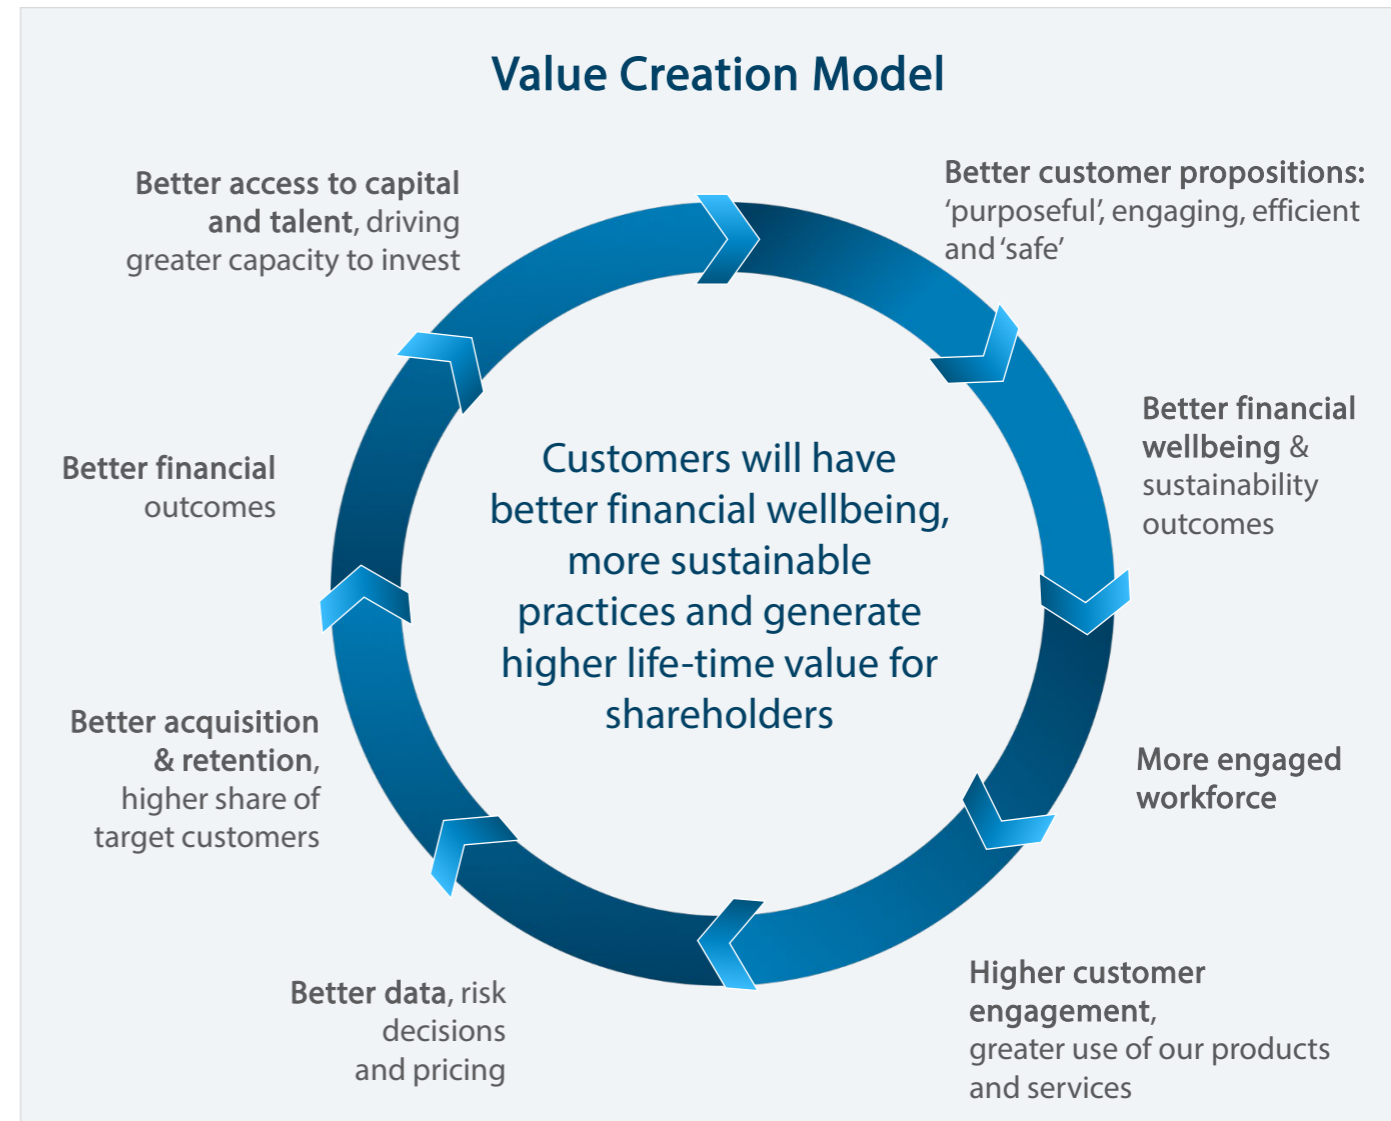

Partnerships
that unlock
new value

THE BANK WE'RE BUILDING

Eight goals aligned with our business model

1. We support a **higher share of customers** in our target segments
2. Our customers have **greater financial wellbeing over their lifetime**, and implement more sustainable business practices than others
3. Our customers are **more engaged, more loyal** and avail themselves of more of the right products and services than those banking with peers
4. We **serve our customers more efficiently** and our **systems are safer** and more reliable
5. We **attract and retain** more of the people with the **skills required to reinvent banking**, in line with our purpose and culture
6. We generate **stronger long-term financial results** (in terms of sustainable economic profits) than our peers, which is reflected in our valuation
7. Our **reputation** with customers, community, potential employees and regulators is better, both absolutely and relative to (domestic) competitors (existing and emerging)
8. Our practices and services provide **more opportunity for the community** and we have supported and improved positive economic development and transition

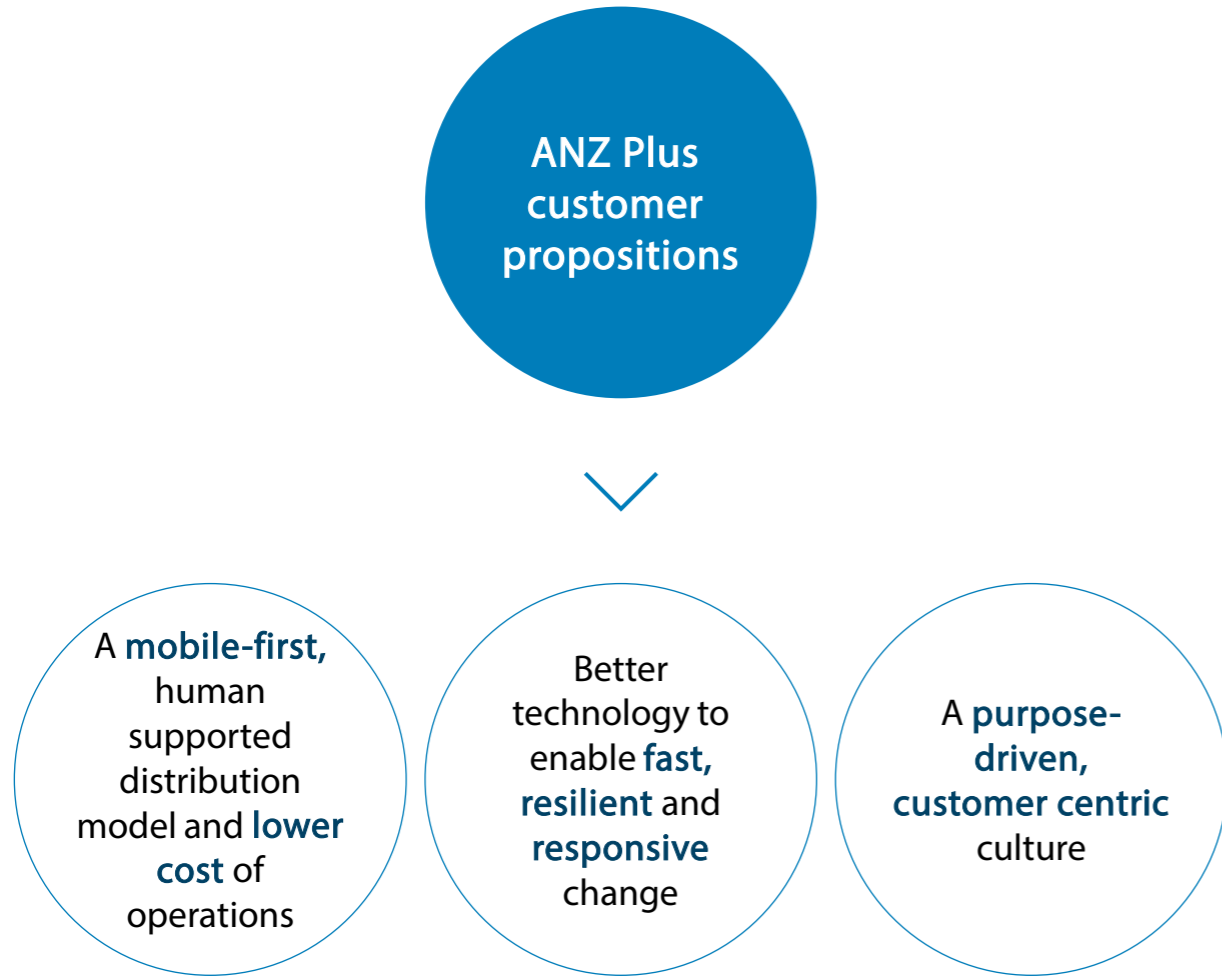

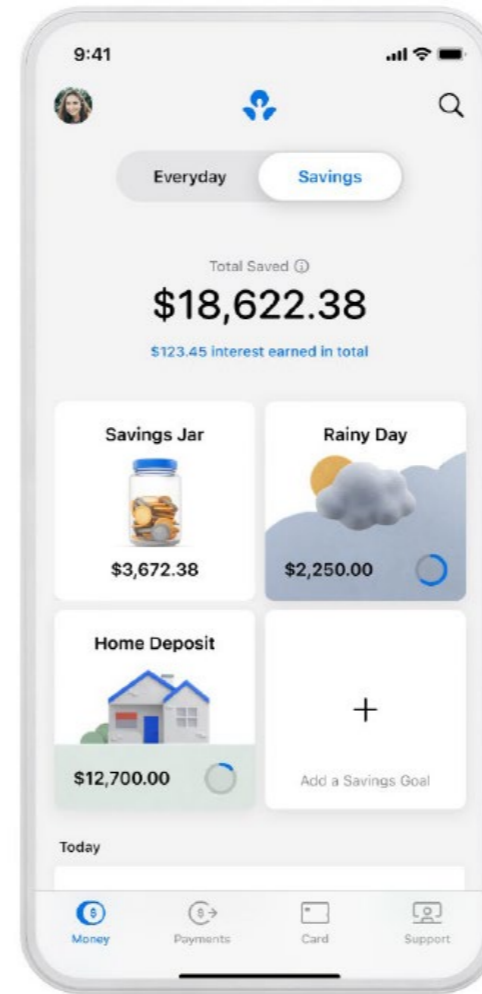

ANZ PLUS - TAILORED TO CUSTOMERS' NEEDS

For personal use only

Delivering better propositions...

...with targeted features customers love

Transact & Save features already driving customer engagement:

Know where my money is going:

Expense Insights & Prediction | see regular expenses, before they occur

Multi Goal Savings | save for up to 99 goals with one account

Personal Insights | see I am Spending Less than I Earn, where my money goes, and more

Ditch my wallet | start using my digital card immediately

Safe & secure | Advanced biometric security, dynamic CVV and more

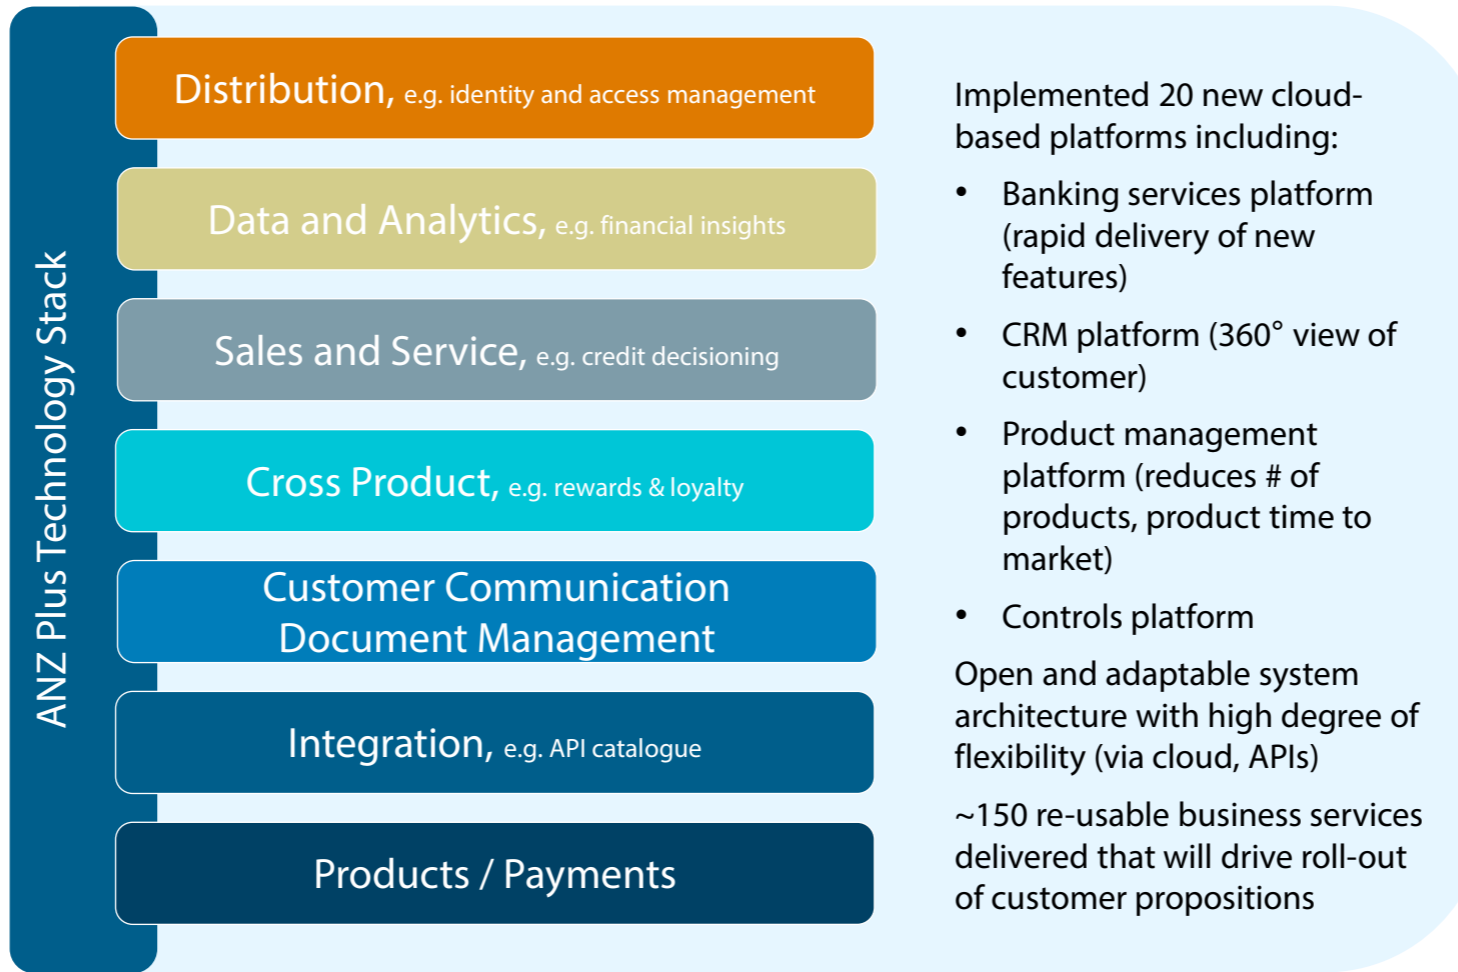

ANZ PLUS - DELIVERING COMPELLING CUSTOMER PROPOSITIONS AT A MUCH FASTER RATE

For personal use only

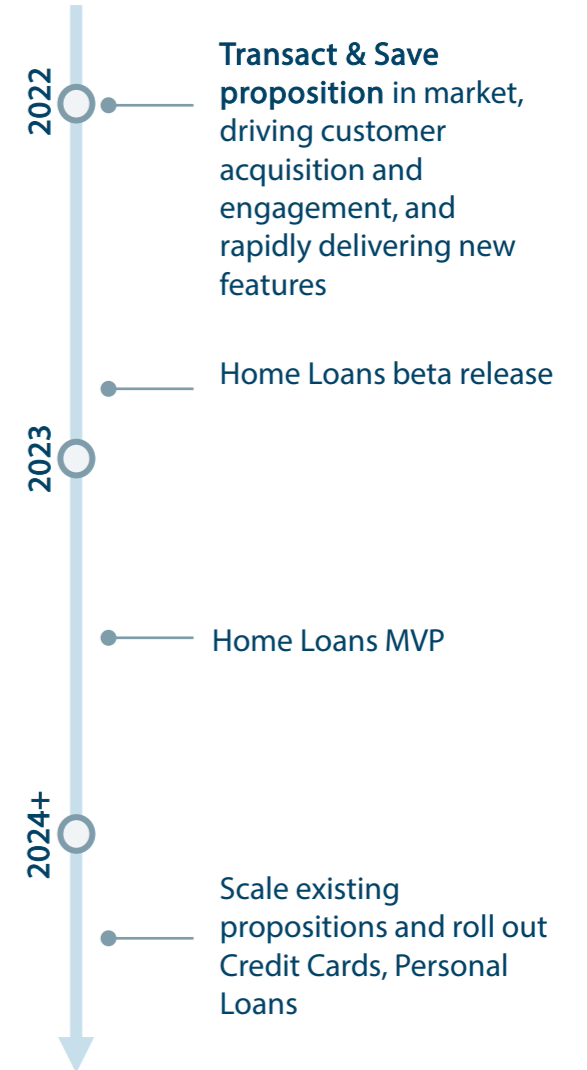

Traditional banking technology

- Complex systems landscape, limited flexibility, slow speed of development, high cost
- Product-focused teams, smaller share of engineering vs business FTEs

> New digital backbone and capabilities

> To deliver compelling customer propositions

EXTERNAL INNOVATION AND VENTURE CAPITAL PARTNER

Home owners

Leading online home loan origination platform

Challenger lender for digital home loans

Digital real estate offer management platform for agents, buyers and sellers

Businesses owners

AI-based digital business assistant to provide insights for small businesses

All-in-one virtual business card and expense management platform

Business loan marketplace

Innovating financial services

Global financial infrastructure providing FX & payment solutions to companies

Open Banking infrastructure layer for banks and fintechs

Rewards platform enabling consumers to get cash back on purchases with participating retailers

Collaboration platform addressing how organisations safely connect on customer data

Interactive smart receipts technology

Delivering strategic value for ANZ and its customers through investing in, building and partnering with businesses that are transforming financial services.

For personal use only

Portfolio Balance, EOP \$b

Portfolio interest earning rates impact³

Further benefits are dependent on future central bank rate decisions

Further benefits of higher current term interest rates will be seen progressively as maturities are gradually reinvested over next 5 years. Step-up is non-linear.

Illustrative potential NII benefit

PROSPECTIVE BENEFIT ⁴ FROM HIGHER INTEREST EARNING RATES		
Relative to 12 months ended Sep 2022	In Year 1 (FY23)	In Year 3 (FY25)
Additional NII earned	~+\$1.5b	~+\$3.2b
Delta on Group NIM	~+17bps	~+34bps

This page may contain forward-looking statements or opinions. Please refer to ANZ's Disclaimer and Important Notice with respect to such statements on page 1

- Overnight to 3 month interest rates
- Primarily 3-to-5-year term interest rates
- Mar 22 and Sep 22 Month rates denote actual portfolio monthly earnings rate achieved
- Future years illustration highlights the potential impact on NII assuming current longer term reinvestment rates are maintained, and shorter-term interest rates follow the path currently forecast by ANZ Research (as at 25 October 2022). Rate timing and magnitude outlined on page 55. Key assumptions: Stable FX rates; Replicating and Capital Portfolio construct remains at current levels in terms of volumes, regions and tenor mix; benefits relate only to Capital and Replicating portfolio. This is a simplified analysis and does not capture the impact of any additional management actions, competitive pressures or other uncertainties

INTEREST RATE SENSITIVITY

Illustrative path & magnitude of movements

Short term interest rate outlook – based on ANZ research forecasts¹

Interest Rate Forecasts (%)	Dec 22	Mar 23	Jun 23	Sep 23	Dec 23	Mar 24	Jun 24
RBA Cash Rate	2.85	3.35	3.60	3.60	3.60	3.60	3.60
NZ OCR	4.25	5.00	5.00	5.00	5.00	5.00	5.00
US Fed Funds Rate ²	4.25	4.75	5.00	5.00	5.00	5.00	5.00

Current term interest rates earned on maturing capital and replicating portfolio tranches

Term Interest Rates ¹ (%)	Current
AUD 5 year	4.34
NZD 3 year	5.11
NZD 5 year	4.97
USD 1 year	4.93

1. Effective as at 25 October 2022

2. For the US, the rate is the ceiling of Fed Fund's corridor

OUR APPROACH TO CLIMATE

For personal use only

ALIGNING OUR LENDING TO THE PARIS AGREEMENT GOALS

- First Australian bank to sign up to the Net Zero Banking Alliance (NZBA)
- On track to set 2030 targets for nine priority sectors in line with our NZBA commitment, aimed at ensuring at least 75% of our portfolio emissions are on a Net Zero pathway by end 2024
- In 2021, set emissions intensity pathways and targets for power generation and large-scale commercial real estate
- Will release pathways and targets for oil and gas and building products this year prior to our Annual General Meeting (AGM) in December
- Our targets, pathways and disclosures demonstrate how we are aligning our lending to the Paris Agreement goals
- Our disclosure is TCFD¹ aligned, and our target setting guided by the Partnership for Carbon Accounting Financials (PCAF) standard
- Our 2022 Climate-related Financial Disclosures will be released prior to our AGM

ANZ

Climate Change Commitment

Supporting our customers in the net zero transition

To meet the Paris Agreement goals, significant greenhouse gas emission reductions are required across all sectors of the economy. Trillions of dollars are needed to invest in new and existing technologies for clean energy and sustainable infrastructure.

The many financing opportunities linked to our business strategy will contribute to the achievement of the Paris Agreement goals and the transition to a net zero economy. The opportunities will also deliver appropriate returns for our shareholders.

We want to be the leading Australia- and New Zealand-based bank in supporting customers' transition to net zero emissions by 2050.

Our environmental sustainability strategy identifies priority sectors, technologies and financing opportunities to help achieve our ambition. ANZ has also joined the Net-Zero Banking Alliance (NZBA) reflecting our commitment with other leading banks globally to enable the transition by aligning our lending portfolio with net zero emissions.

This commitment summarises our climate change approach and respective targets. Additional disclosures and policies are available at anz.com.au/about-us/esg/.

The opportunity:

Society is responding to the shared task of creating a pathway to net zero emissions¹. To achieve the Paris Agreement goals, historic levels of investment and lending will be needed from businesses, governments and financial institutions. This creates significant financing opportunities for ANZ, which we will realize together with our customers.

By anticipating changes to financial markets and financial systems we will seek to better manage climate risks and opportunities. These changes include:

- regulatory expectations, including disclosure;
- customer, shareholder and civil society expectations; and
- how climate risk is assessed, managed and priced.

We are responding to these changes and opportunities in four key areas:

1. SUPPORTING OUR CUSTOMERS AND INDUSTRIES TO TRANSITION

The most important role we can play in enabling the transition to net zero is to support our customers to reduce emissions and enhance their resilience to a changing climate.

We will achieve this by executing our environmental sustainability strategy and providing finance, services and advice that support customers to shift to low carbon business models and operations that put them on a path to net zero emissions.

We support an orderly transition that recognises and responds to social, economic and environmental impacts of a net zero transition. This aligns with our purpose to shape a world in which people and communities thrive.

To achieve this, we are:

- Funding and facilitating A\$550 billion to support our customers to achieve improved environmental outcomes, including the reduction of their greenhouse gas emissions. This includes supporting increased energy efficiency², low-emissions transport, green buildings³, reforestation, indigenous land management practices, renewable energy and battery storage, emerging technologies (such as carbon capture and storage, and hydrogen-based technology), disaster resilience⁴ and climate change adaptation measures.
- Equipping our employees with a deeper understanding of climate risks and opportunities, including the potential of emerging technologies, focussing on our institutional bankers in key customer segments. This expertise will help us develop products and services to meet our customers' needs, for example in:
 - green, social and sustainability-linked loans and bonds
 - lending and advisory services to help our customers buy, sell and raise capital for renewable energy and other low-emissions projects
 - project finance to support the development of long-term sustainable infrastructure.

1. Net zero emissions in this statement relates to net zero human-made emissions. 2. Includes facilitating concessional loans for business customers to buy energy-efficient equipment. Further details on the criteria and standards we use to assess qualifying activities is set out in our ESG Supplement: <https://www.anz.com.au/about-us/esg/reports/esg-reporting/>. 3. ANZ will only finance the construction of new large-scale office buildings if they are highly energy efficient, and being built to either at least a NABERS (National Australian Built Environment Rating System) 5-star energy rating or 5-star Green Star Design rating (or equivalent international ratings). This is the same standard we apply for inclusion in our A\$550 billion target. 4. ANZ has allocated A\$11 billion of its A\$550 billion target to supporting customers' and communities' disaster recovery and resilience. This may include resilience initiatives for weather-related events or non-weather-related disasters.

23 November 2021

PRIORITY SECTORS: PROGRESS UPDATE - LARGE COMMERCIAL BUILDINGS EMISSIONS INTENSITY

For personal use only

Commercial Real Estate - Shopping Centres

GHG¹ Intensity, kg CO₂/m²NLA (Net Lettable Area)

- Portfolio emissions intensity in the Commercial Building sector continues to reduce and we are below our 2030 target pathways
- Commercial building owners continue to invest in renewable energy, the electrification of building infrastructure and energy efficiency measures
- All new large-scale offices financed by ANZ in the commercial building sector are required to have a 5-star NABERS² rating or above

Commercial Real Estate - Office Buildings

GHG¹ Intensity, kg CO₂/m²NLA (Net Lettable Area)

1. Greenhouse gas emissions (GHG)
 2. National Australian Built Environment Rating Scheme

PROGRESS TOWARDS OUR PORTFOLIO EMISSIONS TARGET PATHWAYS – POWER GENERATION

Financial challenges of a changing energy sector

- Wholesale electricity prices increased to record highs in parts of Australia earlier this year. Electricity companies routinely hedge the price of their future energy generation on the ASX electricity futures market, to mitigate against price fluctuations
- Due to these record high wholesale prices, companies using the electricity futures market faced unusually high margin calls on their existing hedge contracts – requiring them to post cash collateral to margin accounts to cover these positions – including some existing ANZ customers
- We have observed similar developments internationally this year. In the UK, the ‘Energy Markets Financing Scheme’¹ is designed to support viable energy firms with major operations in the UK to deal with the unprecedented volatility triggered by Russia’s invasion of Ukraine. These firms will be able to apply for government-backed guarantees to secure commercial financing and meet large margin calls from energy price volatility
- In August 2022, the Australian Energy Market Operator flagged² forecasted electricity reliability concerns over the next 10 years, with urgent investment in electricity generation, storage and transmission required
- Within this context, our challenge is to finance the new green energy infrastructure required to help achieve net-zero emissions, while ensuring existing providers - who are making these investments - are supported while this new infrastructure is being built. These companies serve important roles in the supply and stability of the energy market while the broader operating environment transitions in line with the Paris Agreement goals

1. [Energy Markets Financing Scheme opens today | Bank of England](#)

2. [AEMO | Critical investment needed to manage reliability gaps](#)

PRIORITY SECTORS: PROGRESS UPDATE – POWER GENERATION PORTFOLIO EMISSIONS INTENSITY

Power generation

GHG¹ Intensity (kg CO₂/MWh)

- To ensure the ongoing completeness, accuracy and consistency of our reporting, we are restating our 2020 emissions intensity baseline. This is due to improvements in our ability to identify generation asset(s) that our financing is linked to²
- The emissions intensity of our Power Generation portfolio increased this year due to short term financing of existing customers to help them manage through unprecedented volatility in the energy market. This does not translate to an increase in ‘real world’ emissions, as they are existing customers and assets
- We remain committed to our 2030 target pathway and remain well below the IEA Net Zero Emissions by 2050 Scenario pathway

1. Greenhouse gas emissions (GHG)
 2. More detail will be provided in our 2022 Climate-related Financial Disclosures, to be released prior to our Annual General Meeting

For personal use only

OUR RESOURCES PORTFOLIO

Resources Portfolio, EAD¹ \$b

Oil and Gas

- The change in oil and gas exposure in FY22 was largely driven by significant foreign exchange movements, which impacted the Australian dollar value of our existing portfolio
- Our oil and gas exposures also increased as a result of higher energy prices and customers expanding their distribution to meet critical supply requirements due to the energy crisis in Europe. This has resulted in increased usage of short-term facilities provided to key customers to assist with funding of these oil and gas cargoes and associated activities

CONSISTENCY OF MARKETS INCOME

MARKETS INCOME HAS HISTORICALLY FOLLOWED CLOSE TO A NORMAL DISTRIBUTION, WITH A POSITIVE SKEW

Markets historical monthly income, \$m

Characteristics of monthly income distribution

- Over the last 8 years, monthly Markets revenue has followed close to a normal distribution, with a positive skew:
 - Average monthly revenue ~\$170m with a standard deviation of ~\$50m. Stability is driven by a set of “core” customers who deal with ANZ Markets on a regular basis and across multiple geographies & products
 - Franchise Revenue tends to be higher during a “risk-off¹” environment in financial markets and/or when “bid-offer spreads” widen. This revenue is generated mainly on the back of increased customer activity and from providing continued liquidity support to customers during market dislocations
- FY22 Franchise revenue aligns with the historical tendency for Markets to outperform in these environments and provides important diversification benefits to Group revenues
- FY22 was differentiated by rising interest rates, short-term interest rate and FX volatility, global inflationary pressures and geopolitical events. While this benefitted some businesses, it adversely impacted others particularly Credit & Capital Markets and Balance Sheet Trading, while also requiring higher Derivative Valuation Adjustments

1. A risk off environment is broadly defined as one in which credit spreads widen, risk free bond yields fall, equities sell off, volatility increases and USD strengthens

- Progressing with implementation of APRA Capital Reforms (1 January 2023 effective date), noting the expectation of lower RWA offset by increased capital buffers
- On track with RNBZ capital reform transition, including issuance of RNBZ compliant capital securities

APRA Level 2 Common Equity Tier 1 (CET1) ratio, % 4Q22 Movement

APRA Level 1 Common Equity Tier 1 (CET1) ratio, % 4Q22 Movement

1. Internationally Comparable methodology aligns with APRA's information paper "International Capital Comparison Study (13 July 2015)". Basel III Internationally Comparable ratios do not include an estimate of the Basel I capital floor

2. Based on APRA information paper "Strengthening banking system resilience – establishing unquestionably strong capital ratios" released in July 2017

3. APRA's changes to APS111: Measurement of Capital took effect from 1 January 2022. Benefits to the L1 CET1 ratio was due to a higher L1 CET1 base (as a result of the \$3.5bn equity raise and quarterly earnings), leading to a decrease in L1 CET1 deduction on intra-group equity investments above the 10% CET1 threshold

REGULATORY CAPITAL - 2H22 UPDATE

APRA Level 2 Common Equity Tier 1 (CET1) Ratio – 2H22 Movement, %

APRA Level 1 Common Equity Tier 1 (CET1) Ratio – 2H22 Movement, %

1. Excludes Large / Notable items

2. Capital deductions mainly comprises the movement in retained earnings in deconsolidated entities and equity accounted growth in associates and Other impacts include movements in deferred tax asset deduction, M&A transactions, Net RWA imposts & net other impacts

3. APRA's changes to APS111: Measurement of Capital took effect from 1 January 2022. Benefits to the L1 CET1 ratio was due to a higher L1 CET1 base (as a result of the \$3.5bn equity raise and half-yearly earnings), leading to a decrease in L1 CET1 deduction on intra-group equity investments above the 10% CET1 threshold

CET1 AND LEVERAGE IN A GLOBAL CONTEXT

For personal use only

CET1 ratios^{1,2}, %

Leverage^{1,2,3}, %

Regulators globally have provided specific transitional arrangements for ECL. ANZ has utilised publicly available CET1 information and adjusted for Capital treatment of ECL provisioning where available

ANZ compares well on leverage, however international comparisons are more difficult to make given the favourable treatment of derivatives under US GAAP

1. CET1 and leverage ratios are based on ANZ estimated adjustment for accrued expected future dividends and share buy-backs. Transitional arrangements for expected credit loss and leverage exposure concessional adjustments where details have been externally disclosed. Central bank exposures removed from leverage ratio exposure measure where identified. ANZ ratios are on an Internationally Comparable basis. All data sourced from company reports and ANZ estimates based on last reported half/full year results assuming Basel III capital reforms fully implemented

2. Based on Group 1 banks as identified by the BIS (internationally active banks with Tier 1 capital of more than €3 billion)

3. Includes adjustments for transitional AT1 where applicable. Exclude US banks as leverage ratio exposures are based on US GAAP accounting and therefore incomparable with other jurisdictions which are based on IFRS

4. ANZ international CET1 proforma ratio adjusted for Suncorp Bank acquisition. Impacts from Suncorp Bank acquisition on Leverage ratio are not expected to be material

BALANCE SHEET STRUCTURE¹

NSFR movement, %

Balance sheet composition, Sep 22

NSFR Composition, Sep 22 \$b

1. NSFR Required Stable Funding (RSF) and Available Stable Funding (ASF) categories and all figures shown are on a Level 2 basis per APRA prudential standard APS210 2. RBA CLF decreased by \$8.0b in FY22. Consistent with APRA's requirement, ANZ's remaining CLF of \$2.7b will cease on 1 January 2023 3. Net of other ASF and other RSF, net FX impacts and Liquids 4. During FY22 ANZ's NSFR reduced by ~2.5% due to the application of revised APRA APS210 FAQs which impacted NSFR attribution across Retail, Corporate and FI classifications 5. 'Other' includes Sovereign, and non-operational FI Deposits 6. 'Other Assets' include Off Balance Sheet, Derivatives, Fixed Assets and Other Assets 7. All lending >35% Risk weight 8. Includes NSFR impact of self-securitised assets backing the Committed Liquidity Facility (CLF) 9. <35% Risk weighting as per APRA Prudential Standard 112 Capital Adequacy: Standardised Approach to Credit Risk 10. Includes FI/Bank deposits, Repo funding and other short dated liabilities

For personal use only

LIQUIDITY COVERAGE RATIO (LCR) SUMMARY¹

Movement in average LCR surplus², \$b

LCR composition, Average FY22 \$b

1. All figures shown on a Level 2 basis as per APRA Prudential Standard APS210
 2. LCR surplus excludes surplus liquids considered non-transferrable across the Group. As at 30 September 2022, this included \$14b of surplus liquids held in NZ
 3. RBA CLF decreased by \$8.0b in FY22. Consistent with APRA's requirement, ANZ's remaining CLF of \$2.7b will cease on 1 January 2023
 4. 'Other' includes off-balance sheet and cash inflows
 5. Comprised of HQLA2, Internal RMBS and other ALA. Other ALA includes assets qualifying as collateral for the Committed Liquidity Facility (CLF), excluding internal RMBS, up to approved facility limit; and any assets contained in the RBNZ's liquidity policy – Annex: Liquidity Assets – Prudential Supervision Department Document BS13A

For personal use only

TERM WHOLESALE FUNDING PORTFOLIO¹

For personal use only

- ANZ's term funding requirements depend on market conditions, balance sheet needs and exchange rates, amongst other factors
- ANZ's CLF remaining (\$2.7b) and TFF maturities (\$20b) over next two years, is very manageable
- Current total term wholesale funding outstanding of ~\$103b (incl TFF) has reduced by ~\$11b since FY18
- ANZ's FY23 funding needs expected to revert to pre-COVID volumes of \$25-30b
- Suncorp Bank's modest funding needs are in addition to these requirements

1. All figures based on historical FX and exclude AT1. Includes transactions with an original call or maturity date greater than 12 months as at the respective reporting date. Tier 2 maturity profile is based on the next callable date

ANZ'S TIER 2 CAPITAL PROFILE¹

For personal use only

ANZ's Tier 2 capital requirement to progressively increase to meet TLAC requirement

- ANZBGL has issued \$15.3b since July 2019 across AUD, EUR, GBP, JPY, SGD and USD
- APRA announced a finalised Tier 2 capital requirement of 6.5% of RWA by 1 January 2026 (current Tier 2 ratio is 4.2%)
- Suncorp Bank related RWA requires ~\$2.5b of additional Tier 2 TLAC requirements by 1 January 2026
- ANZBGL (inclusive of Suncorp Bank requirements) FY23 Tier 2 issuance needs expected to be ~\$6.0-6.5b
- Planned issuance in multiple currencies in both callable and bullet format
- In addition to ANZBGL Tier 2 TLAC needs, ANZ NZ has modest Tier 2 requirements of 2% of ANZ NZ RWA by 2028 under RBNZ requirements. ANZ NZ has issued NZD ~\$1.4b Tier 2 under these rules since September 2021
- Well managed amortisation profile provides flexibility regarding issuance tenor

Funding profile, Notional amount \$m

Tier 2 capital, Notional amount %

Capital amortisation profile², \$m

1. Profile is AUD equivalent based on historical FX, excluding Perpetual Floating rate notes issued 30 October 1986, ANZ NZ \$600m floating rate notes issued September 2021 and ANZ NZ USD\$500m fixed rate notes issued August 2022. Comprises Tier 2 capital in the form of Capital Securities only (i.e. does not include other Tier 2 capital such as eligible General reserve for impairment of financial assets)

2. Amortisation profile is modelled based on scheduled first call date for callable structures and in line with APRA's amortisation requirements for bullet structures

BASEL III CET1 REFORMS AND TLAC FINALISATION

For personal use only

APRA CET1 reforms

- Revisions to capital framework finalised in November 2021
- Implementation on 1 January 2023
- The reforms will result in changes to the calculation and presentation of capital ratios
- APRA has stated that these changes do not require banks to raise additional capital
- Minimum CET1 ratio 10.25% - which includes a baseline countercyclical capital buffer (CCyB) of 1% of Australian assets that can be released in times of systemic stress¹
- Enhancing risk sensitivity in residential and commercial property portfolios. Higher capital requirement segments such as interest only and investor mortgages
- 72.5% output floor to limit the gap between Standardised and Advanced ADIs
- Aligning RWA of New Zealand banking subsidiaries by applying a similar framework to Reserve Bank of New Zealand

TLAC finalisation

- APRA finalised TLAC requirements at 6.5% of RWA in the form of Tier 2 capital²
- Implementation on 1 January 2026
- Interim target of 5% of RWA in the form of Tier 2 capital remains at 1 January 2024

Updated minimum capital requirements, %

1. The CCyB is calculated on a bank's Australian assets only. The final CCyB requirement will reduce based on a bank's international exposures
 2. TLAC requirement of 6.5% is calibrated based on future RWA from APRA's Capital Reforms (effective January 2023) which is expected to be lower than current requirements. As a result, APRA noted the additional TLAC requirement of ~4.5% of RWA under the new capital framework will in dollar terms equate to the lower end of APRA's previously announced TLAC range of 4-5% of RWA

COMMERCIAL PROPERTY - SEGMENTS OF INTEREST

Outstandings by region, GLA \$b

Outstandings by sector, %

- Australian volumes driven mainly by higher lending to the Offices, Retail and Industrial investment together with Residential development
- Majority of investment lending is to diversified investment grade REITs or assets with stronger fundamentals and stable earnings profile
- Growth in residential consists of land development (sponsors with large diversified portfolios) and residential apartment development which is increasingly focused on local owner occupier / downsizer demand. Longer term trend volumes in high rise development have declined
- International portfolio stable with exposure predominantly to large, well rated names in Singapore and Hong Kong (SAR)

- Growth over the last 12 month has been relatively even across the portfolio of asset types and consequently YoY composition remained relatively stable with only a minor increase in Offices and decrease in Industrial investment exposure

Fixed rate Home Loan expiry profile, \$b

For new ANZ fixed rate loans, serviceability is assessed as:

- if the standard variable rate (less customer discount) plus the 3% serviceability buffer is higher than the customer fixed rate, then the higher of the standard variable rate (less customer discount) plus the 3% serviceability buffer and the floor rate which is currently 5.1%
- else the higher of the customer fixed rate plus the 3% serviceability buffer and the floor rate which is currently 5.1%

ANZ flow borrowing capacity¹, FY22

30+ DPD at Sep 22 by fixed rate expiry month

1. Borrowing Capacity is determined after income and expense buffers and shading are applied, and based on verified income only. Majority of lending 'at capacity' is bridging finance

AUSTRALIA HOME LOANS - BOOK ORIGINATED AND ATTRIBUTES

For personal use only

Home Loans portfolio, Sep 22

ANZ has limited exposure to recently originated lending at high LVRs with no LMI, and much of this cohort has savings buffers in excess of 3 months of repayments:

- \$4b of the \$283b Home Loans portfolio (or <1.5%) has been on book less than 24 months, has an LVR of greater than 80% with no LMI and less than 3 months savings buffers

Of the \$4b with less than 3 months savings buffer:

- \$1.2b (29%) are investor loans
- \$475m (11.5%) have UMI² ≤ \$100
- \$68m (1.65%) are one or more payment past due and
- <\$1m (0.02%) are 90+ days past due

1. Buffers are calculated at customer level, incorporating all Retail debts within the customer cluster at ANZ, and all funds available in ANZ redraw, offset and transaction and savings accounts
 2. Uncommitted monthly income (UMI) is determined after income and expense buffers and shading are applied, and based on verified income only

Home Loans delinquencies^{1,2,3,4}

% of Portfolio Segment Balances

Home Loans 90+ DPD (by vintage)⁵, %

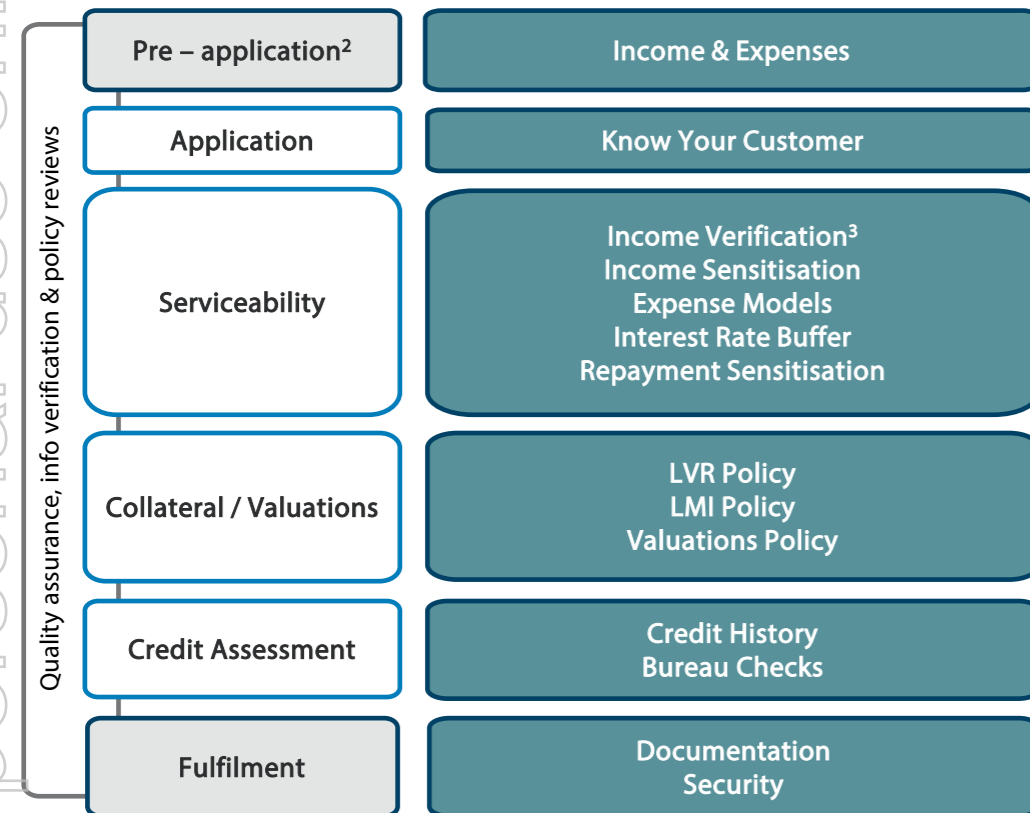

1. Includes Non Performing Loans 2. ANZ delinquencies are calculated on a missed payment basis for amortising and Interest Only loans 3. The current classification of Investor vs Owner Occupied, is based on ANZ's product category, determined at origination as advised by the customer and the ongoing precision relies primarily on the customer's obligation to advise ANZ of any change in circumstances 4. 30+ and 90+ between Mar 20 and Jun 20 excludes eligible Home Loans accounts that had requested COVID-19 assistance but due to delays in processing had not had the loan repayment deferral applied to the account 5. Home Loans 90+ DPD vintages represent % ratio of ever 90+ delinquent (measured by # accounts), contains at least 6 application months of that fiscal year contributing to each data point

AUSTRALIA HOME LOANS - UNDERWRITING PRACTICES & POLICY CHANGES

Multiple checks during origination process

- End-to-end home lending responsibility managed within ANZ
- Effective hardship & collections processes
- Full recourse lending
- ANZ assessment process across all channels

Underwriting Practices & Policy Changes¹

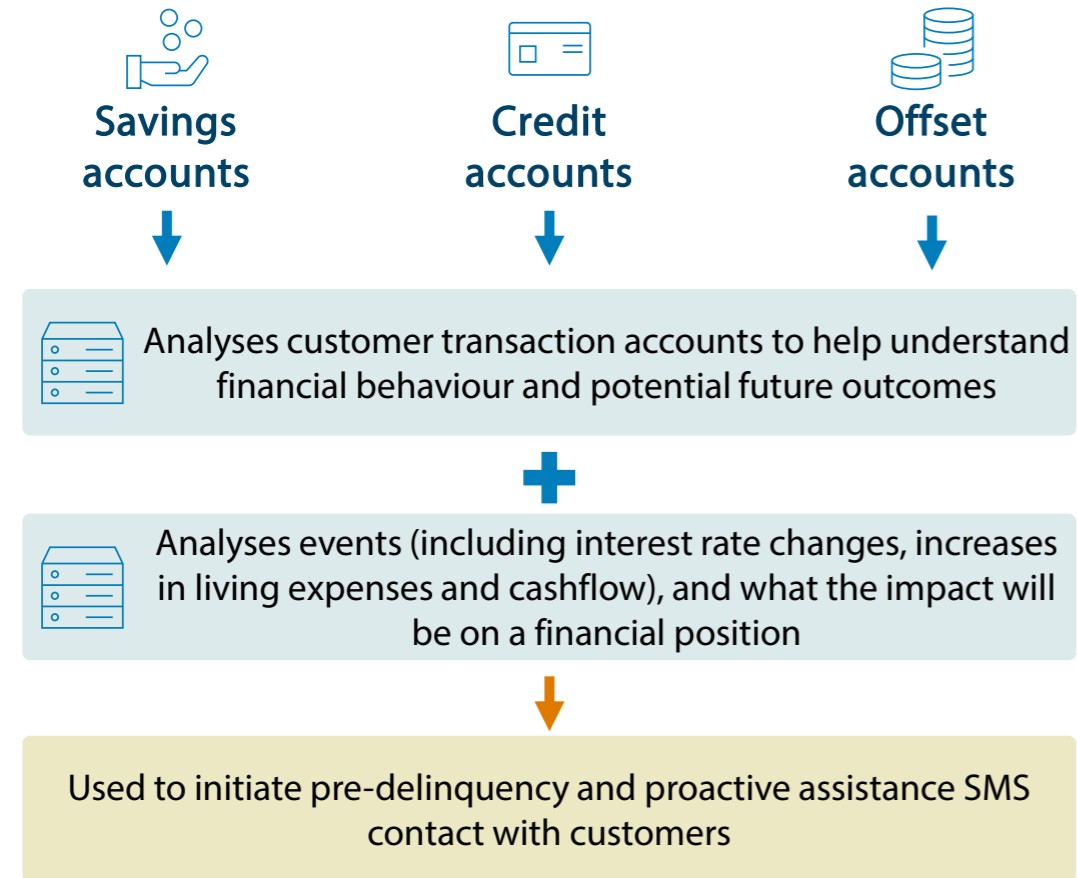

Aug 2015	Interest rate floor applied to new and existing mortgage lending at 7.25%
Apr 2016	Introduction of an income adjusted living expense floor (HEM ⁴) Introduction of a 20% haircut for overtime and commission income
Jun 2017	Minimum default housing expense (rent/board) applied to all borrowers not living in their own home and seeking Investor (or Equity) loans
Nov 2018	Enhanced Responsible Lending processes including additional enquiry regarding expenses and increase in minimum monthly credit card expense
May 2019	Introduced the break down of borrowers' living expenses (subsequently increased from 14 categories to 22 in Sep 2020)
Jul 2019	Increase of interest rate buffer to 2.50% and reduction of interest rate floor to 5.50% (replacing the 7.25% APRA floor)
Oct 2019	Introduced Debt to Income restrictions to decline lending greater than 9x DTI
Feb 2020	Introduced a residential rental income yield cap at 7% of the security value Interest rate floor decreased to 5.25%
Aug 2020	Introduced investment income yield caps: interest income capped at 3% and dividend income capped at 6% Withdrew Low Doc lending Additional Debt to Income restrictions requiring manual assessment where DTI is between 7x and 9x
Feb 2021	Interest rate floor decreased to 5.10%
Aug 2021	Withdrew Equity Manager product offering
Nov 2021	Increase of interest rate buffer to 3.0%
May 2022	Introduced Simpler Switch proposition which allowed a more streamlined Home Loan application
Jun 2022	Debt to Income ratio restrictions tightened to decline lending greater than 7.5x

1. 2015 to 2022 material changes to lending standards and underwriting , excludes temporary COVID related policies
2. Customers have the ability to assess their capacity to borrow on ANZ tools
3. Introducing a streamlined refinance process for a segment applications eligible for the simpler switch proposition
4. The HEM benchmark is developed by the Melbourne Institute of Applied Economic and Social Research ('Melbourne Institute'), based on a survey of the spending habits of Australian families

LENDERS MORTGAGE INSURANCE

September Full Year 2022 results

Gross Written Premium (\$m)	\$97.9m
Net Claims Paid (\$m)	\$5.6m
Loss Rate* (of Loan Exposure - annualised)	1.7bps

*Negative Loss Rate driven by reductions in outstanding claims provisions

ANZLMI claims loss ratios remained comparable to peers¹

1 Source: APRA general insurance statistics (loss ratio net of reinsurance). 2. Aggregate Stop Loss arrangement –reinsurer indemnifies ANZLMI for an aggregate (or cumulative) amount of losses in excess of a specified aggregate amount. When the sum of the losses exceeds the pre-agreed amount, the reinsurer will be liable to pay the excess up to a pre-agreed upper limit. 3. Quota Share arrangement - reinsurer assumes an agreed reinsured % whereby reinsurer shares all premiums and losses accordingly with ANZLMI

LMI & Reinsurance structure

Australian Home Loan portfolio LMI and Reinsurance structure at 30 Sep 22 (% New Business FUM Oct 21 to Sep 22)

ANZLMI uses a **diversified panel of reinsurers** (10+) comprising a mix of APRA authorised reinsurers and reinsurers with highly rated security

Reinsurance is comprised of a **Quota Share arrangement** with reinsurers for mortgages 90% LVR and above and in addition an **Aggregate Stop Loss arrangement** for policies over 80% LVR

FURTHER INFORMATION

Note on reconciliation between the Consolidated Financial Report Dividend Announcement and Appendix 4E and the Results Presentation & Investor Discussion Pack:

During the September 2022 half, the Group revised its treatment of ongoing trail commission payable to mortgage brokers to recognise a liability within Payables and other liabilities equal to the present value of expected future trail commission payments and a corresponding increase in capitalised brokerage costs in Net loans and advances.

The balance at 30 September 2022 was \$1,226 million for the Australia Retail division and \$94 million for the Australia Commercial division. Comparative information has not been restated

This increase in balance is not reflected in the Investor Discussion Pack Housing portfolio and associated charts
