### Notes to table

1. This amount is the balance of outstanding secured debt as provided by BNZ at the date of our appointment (excluding interest accrued to that date). BNZ holds a first ranking general security agreement over all assets and undertakings of the Company. Interest continues to accrue on the outstanding balance. Since our appointment \$2.48m has been repaid to BNZ.
2. This amount relates to a number of Motor Vehicles leased by the Company which continue to be used during the receivership.
3. This amount relates to a Silage Wagon leased by the Company which continues to be used during the receivership.
4. This amount relates to rental arrears on two Urea Silos rented by the Company.
5. This amount relates to the outstanding holiday pay owed at the date of our appointment. As we have employed a number of existing staff, their holiday pay balances have been carried forward and are being paid out as staff leave or take annual leave.
6. This amount relates to unpaid PAYE and GST at the date of our appointment.

### Property disposed of since our last report

The Company has continued trading in the receivership and certain property has been disposed of in the course of trading its farming operations.

### Proposals for disposal of receivership property

As previously advised, our initial assessment of the Company's farming operations determined that it was in the best interests of the Company to continue trading in the receivership whilst the farm conversions are completed and are brought up to optimum sustainable production levels in order to maximise the value of the Company farms.

The farm conversions are now largely completed, however, whilst progress has been made towards optimum sustainable production, significant further progress is still required to be made in this regard.

As a result, at this time we have not determined when, or if the Company's properties will be placed on the market for sale.

**Amounts likely to be available for payment to creditors**

The total value of unsecured creditors' confirmations received for the Company up to the date of this report is \$3.36m, of which \$422k relates to trade creditors, and \$2.94m relates to unsecured advances from McVitty Properties Limited (In Receivership) to the Company.

As you are aware the Company's major assets are farming properties. The values of these properties are subject to market fluctuations which are difficult to assess, but which will materially affect the prices achieved from any sale of any properties. At this time our estimates indicate that it will be unlikely that there will be any funds available for payment to unsecured creditors arising from the receivership. However, this position will not become clear until the conclusion of this receivership, and as mentioned previously, this is likely to be some time.

**Receipts and payments**

We attach, as Appendix II, a statement of receipts and payments in the receivership for the period of the receivership, being 17 September 2010 to 16 March 2011.

Dated: 16 May 2011

---

Maurice George Noone  
Receiver
