

# Merchant Service

## Fee Pricing Options

ANZ has several options with regard to the structure of your Merchant Service Fees. Instead of a single Merchant Service Fee covering all your Visa and MasterCard transactions, you can now choose an Unblended pricing option or an Unbundled pricing option.

These additional pricing options are detailed below:

**Unblended Pricing** – You can choose to be charged a separate Merchant Service Fee rate for your total Visa transactions and your total MasterCard transactions. The Unblended Pricing option is available for new customers and for existing customers when their Merchant Service contract comes up for renewal.

**Unbundled Pricing** – You can choose to have your Merchant Service Fee rate further split so that your charges are specified by reference to the interchange rate (based on the type of card processed and the method of processing the transaction) plus a margin above that figure (a 'cost-plus' option). The Unbundled Pricing option is available for new customers and for existing customers when their Merchant Service contract comes up for renewal.

### DOMESTIC INTERCHANGE FEES

The tables below show the maximum Domestic Interchange Fees applying to New Zealand domestic retail purchase transactions.

### Visa New Zealand National Net Maximum Credit Interchange Reimbursement Fees
