The number of days to sell improved by five days compared to April, from 53 days in April to 48 days in May. Compared to May 2014 the number of days to sell improved by 14 days. Over the past 10 years the median number of days to sell across the Manawatu/Wanganui region in May has averaged 53 days.

REINZ Chief Executive, Colleen Milne noted that "there has been an emerging trend of investor enquiry from Auckland with more first home buyers active in the market. Listings remain tight, even accounting for the normal seasonal lull with a large volume of old stock still on the market."

The median price trend is now falling, although the volume trend remains steady. The days to sell trend is also now steady. The overall trend for the region remains easing.

### **REINZ Taranaki Region Analysis for May 2015**

#### Commentary

Sales volume for the Taranaki region rose by 48% compared to May 2014 with sales up 57% in New Plymouth, 50% in Bell Block and 48% in Harwera. Compared to April sales volumes rose by 17% with sales up 48% in Hawera, 16% in New Plymouth and steady in Bell Block.

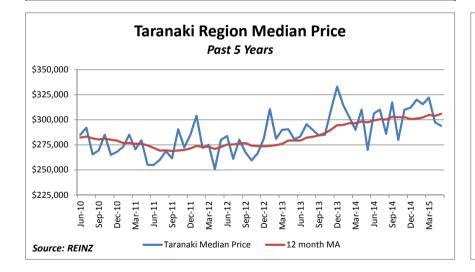

The median price across the region rose by \$24,000 (+8.9%) compared to May 2014, with prices up 37% in Hawera, 20% in New Plymouth and 15% in Bell Block. Compared to April the median price fell by \$3,500 (-1.2%) with prices rising 12% in Hawera and 6% in New Plymouth, but falling across the rest of the region.

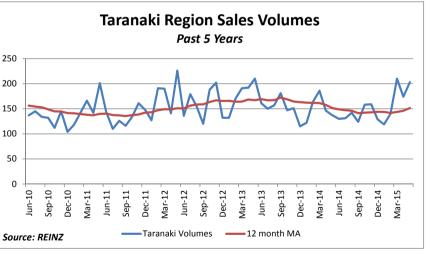

The number of days to sell improved by six days compared to April, from 51 days in April to 45 days in May. Compared to May 2014 the number of days to sell eased by one day. Over the past 10 years the median number of days to sell across the region in May has averaged 49 days.

REINZ Chief Executive, Colleen Milne noted that "the number of first home buyers and investors is up on the same time last year, however, listings remain tight and vendor expectations are rising. There has also been an increase in higher value sales recently."

The median price trend continues to ease, with the days to sell trend also now easing. The volume trend is also easing with the overall trend for the region continuing to ease.

# REINZ Nelson/Marlborough Region Analysis for May 2015

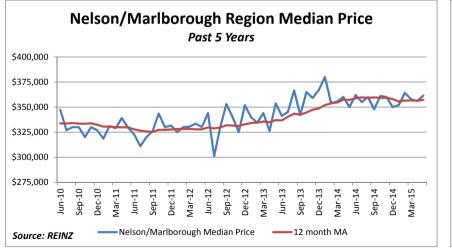

| Commentary   |    |  |  |  |  |  |  |
|--|----|--|--|--|--|--|--|
| The median price rose by \$11,500 (+3.3%) compared to May 2014 with prices rising 8% in Nelson and Richmond. Compared to April the median price rose by \$5,500 (+1.5%) with prices rising 5% in Motue falling elsewhere across the region.                      |    |  |  |  |  |  |  |
| Sales volume compared to April rose 7%, with sales rising 50% in Motueka, 29% in Richmond and flat Nelson. Compared to May 2014 sales volumes rose by 6%, with rising 20% in Richmond and 18% in Marlborough/Kaikoura but falling across the rest of the region. | in |  |  |  |  |  |  |
| The number of days to sell improved by one day in May, from 45 days in April to 44 days in May. Com  |    |  |  |  |  |  |  |

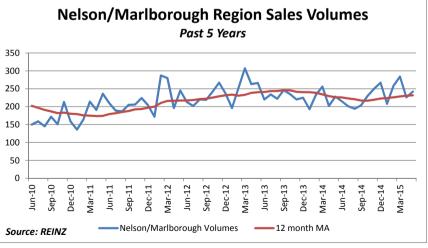

to May 2014 the number of days to sell improved by one day in May, noni 45 days in April to 44 days in May. Compared of days to sell in May has averaged 45 days across the region.

REINZ Chief Executive, Colleen Milne noted that "there has been strong demand for new subdivisions in Richmond, which is providing confidence to the market as well as an increase in first home buyers active in the market. Listings have declined in line with the seasonal trend."

The price trend for the region continues to fall, although the sales volume and days to sell trends are now easing. Overall the trend for the region is easing.

## REINZ Canterbury/Westland Region Analysis for May 2015

Commentary

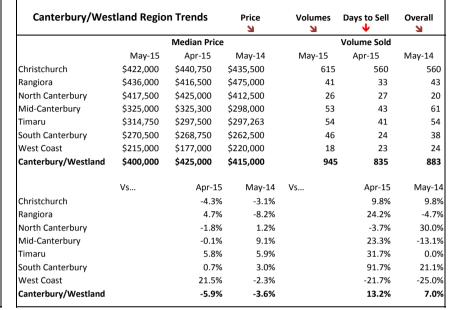

Sales volume across the region rose 13% compared to April, with sales rising 92% in Sth Canterbury, 32% in Timaru and 24% in Rangiora. Compared to May 2014 sales volume rose 7%, with sales volumes rising 30% in Nth Canterbury, 21% in Sth Canterbury and 10% in Christchurch.

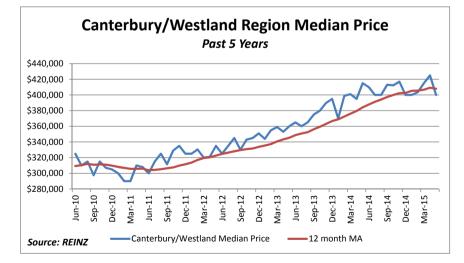

The median price fell by \$15,000 (-3.6%) compared to May, with prices rising 9% in Mid Canterbury and 6% in Timaru, but falling 8% in Rangiora. Compared to April 2014 the median price fell \$25,000 (-5.9%) with prices falling 4% in Christchurch and 2% in Nth Canterbury, although prices increased by 22% in West Coast.

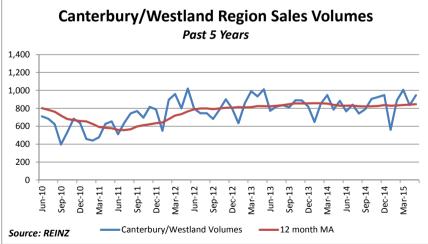

REINZ Regional Director, Jim Davis, commented that, "there are more first home buyers in the market as more property becomes available, although the number of listings has declined as winter approaches. The market is balanced across the region with volumes steady and prices easing back slightly."

The number of days to sell eased by one day in May, from 31 days in April to 32 days in May. Compared to May 2014 the number of days to sell improved by two days. Over the past 10 years the average number of days to sell in May across the region has been 36 days.

The median price trend is now easing, with the sales volume trend also easing. The days to sell trend continues to fall. The overall trend for the region is now easing.

## REINZ Central Otago Lakes Region Analysis for May 2015

Sales volume for the Central Otago Lakes Region rose by 21% compared to May 2014, with sales rising 25% in Queenstown and 18% in Central. Compared to April, sale volumes fell 13%, with sales falling 8% in Queenstown and by 16% in Central.

Commentary

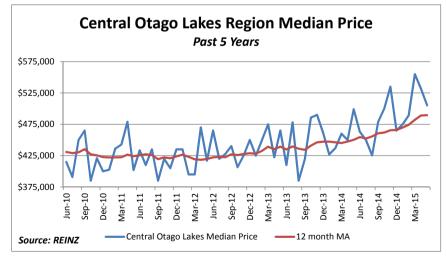

The median price across the region rose \$6,250 (+1.3%) compared to May 2014, with prices rising 27% in Central and 15% in Queenstown. Compared to April, the median price fell \$26,750 (-5.0%) with prices rising 9% in Central and rising 3% in Queenstown.

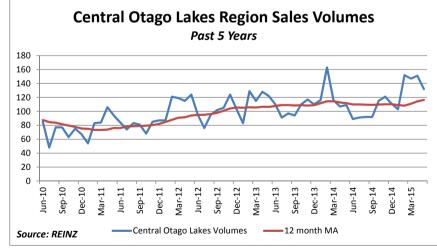

The number of days to sell fell by 15 days compared to April, from 42 days in April to 57 days in May. Compared to May 2014 the number of days to sell eased by six days. Over the past 10 years the average number of days to sell in May across the region has been 69 days.

REINZ Chief Executive, Colleen Milne commented that "the region continues to see an increase in the number of investors in the market, although there are fewer first home buyers around. There has been an increase in activity in the \$800k- \$900k bracket, although some of these properties have been on the market

The median price trend continues to improve, with the volume trend now steady. The days to sell trend is also now steady. The overall trend remaining steady.

## **REINZ Southland Region Analysis for May 2015**

| Commentary  |               |
|---|---------------|
| The median price across Southland rose \$28,000 (+15.8%) compared to May 2014, with an 18% increase in Invercargill and a 12% fall in Gore. Compared to April the median price increased by \$5,000 (+2.5%) with prices rising 4% in Gore but falling 2% in Invercargill.   | 1             |
| Sales volumes fell 3% compared to May 2014, with a 2% increase in Invercargill and a 19% fall in Gore.<br>Compared to April sales volumes fell 5%, with a 13% fall in Gore and a 5% increase in Invercargill.   | S             |
| The number of days to sell in Southland improved by one day compared to April, from 48 days in April to 47 days in May. Compared to May 2014 the number of days to sell was steady at 47 days. Over the past 10 years the number of days to sell in May for the Southland region has been 40 days.                            | וו<br>כי<br>S |
| REINZ Chief Executive, Colleen Milne commented that "the Southland market is best described as steady at present with an increase in first home buyers and vendor expectations creeping up. An increase in sales at the top end of the market is also helping to buoy confidence as the region heads into the winter months." |               |

The median price trend continues to ease along with the sales volume trend. The days to sell trend is now also easing, with the overall trend for the region easing.
